Delete This Layer!

***Visual Realm Printing cannot print
if this layer is not deleted.***

To ensure color to the edge of your product (bleed), you must extend the color (design not text) past the **red** line. Where the **red** line meets the blue line, is where the product will be cut.

The **blue** line represents the text safe area. Please keep text well within the "text safe" area to avoid the text being cut off or too close to the edge on the final product.
